

WHAT IF?

You Could Partner with a Company that...

- Developed a cutting-edge proprietary concrete & structural steel tilt-up system that saves both time & money.
- Provides not only the most efficient, constructable structural design, but also serves as the Engineer of Record through our exclusive partnership with CON/STEEL Tilt-up Systems, the industry's leading tilt-up engineering firm with more than 35 years & 83 Million SF of tilt-up experience.
- Gives you a competitive edge over your competition in the RFP stage of a project.
- Provides a complete structural shell package including all concrete and structural steel systems.
- Provides you with GMP pricing for the structural shell during the design development phase of the project.
- Has Single Source Responsibility, can Identify Costs Early & can Save you Time & Money.

WHAT IF?

You could get complete integration of...
Structural Design, Engineering & Construction
in one company?
